Age: 14
Birthday: November 1
Gender: Male
Pronouns: he / him
Sexuality: Bisexual homoromantic
Appearance: Lee has short, messy, hazelnut brown hair, though the left side is essentially shaved off (though there's still the tiny roots of hair remaining, if that makes sense). He has chocolate brown eyes and slightly tanned skin, plus a small frame and fragile build. He stands half an inch below 5'4".

Mental: Lee . . . uh . . . I actually don't know.

Physical: Lee is fairly weak, and can hardly throw a punch.

@Future, I don't think Lee can be allowed simply because you already have four characters. Like i get you have 3 going off elsewhere but they will come back and that won't be fair to the other players if you got to make a fifth character simply because three temporarily 'left' the rp.
I'm not a mod for this RP nor am I trying to cause drama but I'm simply pointing out that it's kind of against the rules and unfair for others playing.

@Gem: . . . what? we always did switchouts in the original ML, what's different now? also, i'm not gonna RP Laf, Laur, or Thom at all while they're gone, and Lee will hardly be roleplayed [he'll only be a side character] once they're back.

@Gem: it's fine, don't worry— but in the last rp, we allowed RPers to switch out characters if they wanted, as long as the characters switched in wouldn't be there forever. Lee would have to be taken out once the others return, or one of the trio would have to be taken out.

@Necro, Oh okay! I wasn't aware of the switch out because after The Certain Issue happened, I left the forums. As a suggestion, y'all should put it in the rules so that people know and don't get bothered by the fact somebody gets an extra while others can't.

OK, so Desert Shadow is like Style Queen's glitter travel, except sand, specifically, multicolored sand, the brown on her suit (and her face) turning to golden-cream colored sand (the color of desert sand), and the cream on her suit turning to black sand, as well as small twists of black sand all over.. She can't actually fly with it, because she isn't fully sand. It's still in the vague shape of a human being (in the rare moments when you can actually see her before she starts running), and if you manage to punch her, it acts like quicksand.

@Fallon i'm no mod either, but something i noticed about your form i'd like to point out:
if he's easygoing and relaxed, then why would he be agitated about little things? that would mean he's uptight, which is...the opposite of easygoing and relaxed

@future hey uh can you calm down? i know it sucks, but, like you said before, alexander isn't a completely original character. plus, i think adam is primarily on t39c mb, where the rping rules are a lot looser

@Ivoryink: I'm not sure about the distraction power on the bell, it seems a bit to OP. I'm not sure that the powers you put down are exactly "Powers," And the looking innocent thing is kind of controlling. Erm, are her arms paralyzed or something? Please elaborate on what you mean by that. I'm not sure either of those work as a Kwami name.

She has very pale skin with very few freckles. Her eyes are a green color that turns almost yellownear the pupil. She has brown glasses with a design carved on them that looks like feathers. She normally wears a fancy dress shirt with a skirt when in public, but when in private, she wears cozy sweaters and sweat pants. Her shoes are black flats.

She is a very quiet person, but will rant on and on about books. She loves to read, especially mysteries and love stories. She wishes to live a normal, casual life, but almost never acts casual because she doesn't want to anger her parents. She loves libraries and coffee shops. Eleanora is very nervous about meeting new people, but warms up to people very fast (but most people can't tell that she's warmed up to them). She is afraid of having no friends and people only liking her because her parents are wealthy. It takes a lot to tick her off, but when you do, she won't yell at you but instead speak calmly and clearly, with a menacing undertone. She bottles up her emotions and can seem like a stone wall when talking to her.
Hero Appearance: Her suit is a pale cream color. It covers her entire body, only leaving her face visible. Her suit has brown feathers hanging from her arms, like wings. She also has these feathers on her head, like a crest. There is a line of brown circling her head, She wears circular, yellow tinted goggles. going behind her goggles.

Question, what's the limit on characters and what counts as a character. I want to make a hero who takes care of a group of homeless kids. Would each kid count as their own character? Also, what's the age range allowed?

@Gulfstream The character limit is four, and the age limit is 13-17
And I have no idea what counts as a character XD I guess as long as they aren't present too often and don't have their own like individual character arms or something like that it might be fine? I guess unless any of the admin people have a problem with it it's okay

Kay, got it.

A few more questions. Can people that aren't characters be under the age limit and how does this universe connect to the old? Would Eleanora hermeneutics what happened before? Or does she completely start anew?

@Gulfstream yup. Pretty much everything is the same as the old FWRP except instead of Pigeon Butterfly there's Partridge Bumblebee, who uses bees instead of butterflies. It also completely starts anew. No one has any memories from the previous one.
